Reduce costs & speed up deliveries

# CORE SEGMENTS

The screenshot displays the routing software interface. On the left, a sidebar lists various delivery jobs: MI346 - Melanie Olsen, MI555 - Johnson limited, KC663 - kc, KC110 - kc, and TIM003. The main area shows a map of Indianapolis with a route highlighted. A sidebar on the right provides details for the selected route (TIM003), including a list of stops, truck information, and driver assignment. The top navigation bar includes a search icon, a 'CLEAR' button, and a 'CG' button.

The screenshot shows the software dashboard. The top navigation bar includes a search icon, a 'CLEAR' button, and a 'CG' button. The dashboard features several key performance indicators (KPIs) in a grid format: 0 Inbound Manifest, 5 Outbound Trucks, 0/0 Pending Arrival Items / Received Items, 7/0 Scheduled Items / Completed Items, \$1215.07 Revenue, and \$-2284.93 Net Revenue. Below the KPIs, there is a section for 'Outbound Trucks' with a 'DETAILED VIEW' button. This section lists five trucks: MI346 - Melanie Olsen (Driver: driver sura), MI555 - Johnson limited (Driver: New Driver), KC663 - kc (Driver: Chadwick Small), KC110 - kc (Driver: james knight), and TIM003 (Driver: sur sa). Each truck entry includes a 'Go Live' button and a status of 'No Deliveries'.

## Self Scheduling Module

Empower clients and internal teams to schedule pickups, deliveries, and tasks independently with smart automation.

## Routing Optimization

Optimize routes automatically for faster deliveries, reduced fuel costs, and improved operational efficiency.

## Advanced Reporting

Generate customizable reports with real-time insights, trends, performance metrics, and detailed analytics.

# How The Vault ease the operations?

The Problem	The Vault Fix
Missed schedules	Built-in scheduling with alerts
Lost inventory	Real-time tracking & item mapping
Missed repair/damage logs	Photos & notes from the mobile app
No accountability	Role-based logins with audit trails
Manual billing	Automated invoices synced with QuickBooks
Paper inspections	On-the-go logging with mobile app

## How the Vault Improves Operations

- Higher order accuracy
- Faster fulfilment cycles
- Better space utilization
- Reduced manual work
- Improved customer experience
